TO WHOM IT MAY CONCERN:

It is my pleasure to write this testimonial letter to attest to the degree of service provided by Message Communications, Inc. Our company has been advertising to small businesses and home offices with Message Communications since November of 1999. At that time we began in a small office and had a vision. Since that time, Message Communications has helped bring the vision of our company to life, and helped expand operations to an entire building on Camden Drive in Beverly Hills, as well as our second location recently opened on the waterfront in Newport Beach.

In the first month of broadcasting using Message Communications Services we received over 340 quality leads generated for our services. Furthermore, the extended services provided by Message Communications, in recording our inbound calls and sales staff helped us eliminate and optimize our value chain operations and implement much better customer service and sales procedures. Currently, Message Communications accounts for over 75% of the new clients our company signs up. We had tried all types of advertising: radio, newspapers, direct mailing, in house trainings, magazines, and even some television. Nothing we have ever done in the past has had the success and impact of the advertising services provided by Message Communications, Inc.

We will be using Message Communications for all of our future advertising needs. Their knowledge of advertising, consumer psychology, and extremely effective communication skills, all combined create a synergistic effect which has propelled our company by leaps and bounds.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dan Maayan', is written over a horizontal line.

Dan Maayan  
President
